

# Points to Consider...

## *Costs of Illegal Activity*

- When criminals and other destructive residents operate on rental property, communities suffer
- When illegal activity occurs, it affects the safety and reputation of the neighborhood
- Property damage can occur from abuse, retaliation, or neglect
- Fear and frustration when dealing with dangerous and threatening situations
- Loss of other valued residents

"Keeping Illegal Activity Out of Rental Property"

***Working Together to Provide a Safe and Quality Living Environment for Everyone***

## What is CFMH?

The Minnesota Crime Free Multi-Housing (CFMH) program is designed as a partnership between law enforcement, rental property owners and managers, and residents to reduce crime, drugs, illegal, and nuisance activity in rental communities. Developed in 1992, CFMH can be found throughout the United States, Canada, and other countries around the globe.

### **CMFH is a three-phase program:**

#### **PHASE I: Management/Owner Training**

An 8 hour training class designed to provide rental owners and managers with information on how to keep criminal activity out of their property. (For training information, go to [www.mncpa.net](http://www.mncpa.net).)

#### **PHASE II: Crime Prevention Through Environmental Design (CPTED)**

Certification that the rental property has met minimum safety requirements for resident safety.

#### **PHASE III: Resident Safety Training**

Teaching residents how to prevent crime.

Once all three phases are completed, the property is fully certified. This allows use of the CFMH sign and use of the CFMH logo in advertising. Certification must be renewed annually.
